Notes: "Vista" is the common name for IBM and Windows PC Version 4.5.0 or above. This game is tested and working under Windows 4.5.x and newer. - When game says that you have to save the file, it means you can't save the entire game. To save all data, press B. - If you do not have any save option to enable (i.e.: You have not quit the game) there is a window at the end of the save game where you can turn off all saving options. (This helps me) - You can download G.W.Vista4 here: <https://drive.google.com/open?id=0B7WnHdWk9VIKZYxQRQQG1M0AjQG0Y> - Check your disk or check your network connection by "Windows" or "mac" then check "Autosave" option. - If you have issues with text or images not loading, please try "Advanced settings->Help&Error->Disk drive" then try more disk drives. - If you get the message "Some errors occurred" please try to install the latest OS and check all your files from "Windows." - You can also try "Advanced settings->Help&Error->Game" to have some crash-fixes. (see my other post.) - If you want to check the install of the game, download and try the installer here: <http://www.skse.ru/download/installer-gw2svista4-0-1.rar> - Make sure you are on the same network as Gav, check it out (not on the old net) by typing /server gav on the console..
